

## Taliman Prepares For Season's Grind Under Direction Of Court's Receiver

Mr. Villa informs THE HERALD that maintenance of the mill is being carried on with the plan to have it ready to commence grinding in November, the exact date depending on the maturity of the crop.

The drainage ditches are being cleaned, and plans are afoot to have the harvesting equipment returned for use in the gathering of the estimated 160 to 200,000-ton crop.

The mill is expected to employ some 200 men for it's 4,000 to capacity; the harvest will need 50 hands plus approximately 50 to 75 drivers for trucks, tractors and other machinery.

It is reported that off-shore labor will be furnished for the harvest.

"Budget needs for carrying the crop to harvest and preparing the mill for grinding have been assured" says Mr. Santos, and we hope to have the mill ready to start the '64-65 crop near the mill's rated capacity.

The estimated salary and the estimated cost for the current crop will near the half million mark.

### Santos Villa

The financial strain of the Taliman Sugar Co. has been somewhat relieved under permission of the Court, which has appointed a receiver, a Coral Gables business man.

The receiver has engaged the services of Mr. Santos Villa as General Operations Manager, and he, in turn, has commenced to rehabilitate the cane through liquidation of the company's assets and general housekeeping of the crop.

## 5,000-Ton Sugar Mill Cooperative Plan Being Activated Fri. 2 p. m., Courthouse

Months of investigation, conferences with engineers, financial groups machinery manufacturers, USDA and pre-organization meetings of farmers and landowners, have resulted in a called meeting for farmers and landowners at 2 p. m. Friday, September 13 in the auditorium of the sub-courthouse on the Pahokee Road.

The interested farmers have already received a charter as an Agricultural Cooperative Marketing Association, with the invitation to elect farmers and landowners to join open.

Formal organization and election of directors is planned for the meeting, subject to approval of all participants Friday.

Preliminary planning includes long-time financing through the Bank for Cooperatives, a marketing agreement and cooperative harvesting in accordance with acceptable principles of the Bank.

Dates of mill completion appear planned for planned harvest of the '64-65 crop, by taking full advantage of the mill construction and the year in the Glades in the past two years.

The proposed site is in the Gladesview-Hillbore Plantation area — contemplates the use of what have been considered lands of marginal-temperature records. Consequently, a 95 percent reduction in the normally acceptable average of 40 tons per acre is used in projections, and a 100-to-120 ton grinding season, of a 11½ to 12 sucrose content.

Cooperatives in Florida have a reputation of operating as a group of co-ops OF the farmer, BY the farmer and FOR the farmer, and it is felt that with the addition of a few substantial farmers to the list, the proposed operation will add to the list of successful sugar operations in the Glades.

The areas east and southeast of the Lake are in the center of the new sugar ventures, and the stability of sugar's position to salaries and payroll for the Glades is not disputed.

## Training Courses Being Conducted For Boy Scout Explorer Post Here

Lions Club members Emil Wolf, Paul Goldman, Doug Congleton, Travis Moore, and Sam Lovell attended the first session of a training course in preparation for the club's sponsorship of a Boy Scout Explorer Post.

The meeting was held at the Civic Center, Tuesday evening, under the direction of Paul Luce, Field Executive of the Gulf Stream Council of America Boy Scouts and Reg Lewis, Glades District Training Committee Chairman, assisted by Frank Thomas, Glades District Chairman. They reviewed a national survey of the program.

The Oil Painting Class under the direction of the program will resume sessions on Monday evenings beginning September 16 at 7 p. m.

This class is taught by Mrs. Margaret Earwood in Room 18, Belle Glade High School. The class will have both fall and spring sessions, meeting Monday evenings for three hours.

Registration for the class may be made Monday evening Sept. 16. A fee of \$3.00 is taken for registration.

Two more sessions will be held on Sept. 17 and 24. Any Lion, Field Executive or 100 is invited to attend.

Prior to that training meeting, Paul Luce and Bob Allen, Glades District Organization and Extension Chairman, met with several interested boys and parents and explained brief details of the activities, opportunities, and responsibilities of the Explorer program.

Another meeting has been set for Boys and parents at the High School activities room next Tuesday, Sept. 17, at 7:30 p. m. A film entitled "This is Exploring" will be shown and the boys will have an opportunity to sign up as charter members of the Post.

Interested observers at the training session were parents Glad Wilson, Verne Boots, Charles Haines; and from Okeechobee City, Russell Douglas, Scoutmaster of Troop 689.

Master Jeff Hawkins, grandson of W. B. Hawkins, interrupted his prayers Monday night, after having asked Divine inspiration for three or four of his prayers, to ask "What's the name of our candidates?"

When he had the information, he asked "I've attention be paid to in particular, and the other prayer was whole-some, and sincere."

Both candidates and voters need to imitate Jeff action between now and next Tuesday.

## Need 20 Students Supervised Workshop Classes Offered For Adult Craftsmen, Men And Women

Did you know that there is a supervised workshop program of General Interest at Pahokee High School's Industrial Arts shop?

It is designed to give the adult craftsmen, both men and women, an opportunity to work with the tools and equipment of all general areas such as woodworking, metals, leathercraft, and ceramics. It will not be conducted as a class but as a supervised help shop or workshop. Individuals will be expected to supply their own materials, supplies and equipment. If supplies cannot be purchased locally, arrangements may be made through instructor for the purchase of these supplies.

In order for this program to become authorized we must have a minimum enrollment of twenty students. We need an average daily attendance of fifteen. The coun-

## Sewerage Wins 536 To 370 E. Elliott Gross Dies Suddenly

Funeral services for E. Elliott Gross, 59, of 722 Franklin Road, West Palm Beach and Belle Glade, who died Sunday night, were held Wednesday at 2 p. m. at Mizell-Paville-Zern South Chapel in West Palm Beach.

Mr. Gross has operated a survey business, E. Elliott Gross and Associates, in Belle Glade for the past several years. He didn't know enough about it's workings to consider it serious. Plans are ready and it is expected that just as soon as the run-off election is over: steps will be taken to activate both the water extension and the sewerage additions.

Already, Wednesday morning, favorable comment has been had from prospective industry in the community over the favorable vote for water and sewerage improvements.

Mr. Gross, a life-long resident of West Palm Beach, was chairman of the Contractor's Examining Board, West Palm Beach, the Holy Trinity Episcopal Church, WPB, Moore Haven Lodge No. 61 F & AM, a member of the Palm Beach Command No. 18, K. ## Day Care Center Plans To Include Finance-Building

THE BELLE GLADE INTER-RACIAL COUNCIL held its regular monthly meeting Tuesday, September 8 at 3:30 p. m. in the cafeteria of the Lake Shore Elementary School.

The sole item of business was to hear reports from officers and committee chairmen of Wee Care, Inc., a non-profit organization recently chartered with purpose to provide and operate a day care center in the City of Belle Glade.

Miss Sara Grech, Chairman of the Building Committee, completed plans for the center. George L. Royal, Finance Committee, reported that a campaign to raise building and operating funds will get underway as soon as a chairman has been named.

The president, W. C. Taylor, stated that if construction can be started this month, many days of labor will be available on a donation basis for the project.

Major Otis Street and Brigadier John Bivan, Salvation Army officers from the West Palm Beach Corps, are present and spoke on day nursery operation and campaign procedures. It is expected that the Salvation Army will be in charge of the operation when the center is open.

## Mayor Markham was defeated by Bill Bailey for a two-year term as Commissioner from the central borough by a vote of 635 to 487 in Tuesday's record percentage and record number of votes cast.

Belle Glade voters will go to the polls again Tuesday September 17th to pick two City Commissioners — one between Farmer and Williams in the north borough and between Gear and Weathers in the west borough.

The largest number of votes was cast in the west borough contest: Gear 331, Weathers 401, Graber 388 and Willis 171 for a total of 1497 out of a possible 1597. One hundred didn't vote in this contest.

In the north borough battle, only 1,282 voted: 486 for Farmer, 414 for Williams and 382 for Parrish — 315, didn't vote.

## Commissioner from Central Borough

In central borough 436 didn't have any preference; Bailey received 649 and Mayor Markham counted 492.

## An Idea — The Workers Worked It! Cadillacs — Continentals — Chryslers

It was a "poles" idea that was pushed by the workers to the voting places.

There were 734 negro registrants in the City election Tuesday, and reliable estimates are that 580 to 600 of them voted, and all-time record for the City.

Taxis paid for by the interested citizens' groups as well as privately owned autos were busy all day hauling voters to the polls. Some reported 20 to 25 trips during the day.

Despite the spelling "poles," the idea was there: the desire pushed the workers to the voting places.

Shown here is the more than doubling of capacity of the Foreverglades Mausoleum (right) and the Chapel, which is under construction.

The Chapel is scheduled to be ready for use for funerals and for meditation within thirty days, according to Roe Steele, Contractor, and an officer of the Mausoleum.

A total of 150 regular crypts, eight type crypts, 32 in the Baby Section and 150 Niches for cremated remains.

The old building (center) is shown flanked on the left by type crypts and on the right, the rear of the Chapel contains 32 regular crypts.

In the immediate forefront is the foundation for building No. 3 and to the right, in rear of the original building is the foundation for building No. 4. Both buildings will be completed. It is expected, within the next year.

When completed, this first unit of the Mausoleum will have capacity for more than 800.

## Techniques For Sewing On Fabrics Of 100% Dacron Polyester Fiber

Crepe fabrics of 100 percent dacron polyester are woven with textured yarns in one of both directions of the fabric. Part of the yarn is twisted in one direction. The crepe effect is developed through carefully controlled tension and temperature.

Miss Mary Todd, local Home Demonstration Agent, says the technique for sewing on this 100 percent dacron crepe will be slightly different from that needed for crepe fabrics of other fibers because seams along the lengthwise yarns may shorten and cause puckering. For this reason she says it is best to cut seams on the bias or "off grain."

She says additional fullness should be allowed in stress areas such as across the shoulder blades and in sleeves. ONE INCH OF FULLNESS MAY BE REMOVED IN CAP OF SLEEVE PATTERN. Do this by making a dart 1" either side of the center of sleeve pattern.

Darts at seamline should not

measure over one-fourth inch when pinned in place. Curve of sleeve cap will not need to be straightened.

Select machine settings to suit the characteristics of the crepe fabric of dacron being sewed.

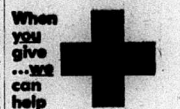

The higher the tension, the more pronounced is the puckered effect. Minimize the effect of thread tension by reducing the tension to the lowest level that produced good sewing. Loosen top and bobbin tension and test on two thicknesses of fabric cut lengthwise the fabric edge 15 to 18 inches long. Have a balanced stitch with a very loose tension.

Switch at a fairly slow speed to avoid having to change speed while stitching around curves. Place one hand on either side of the sewing area — (front and back of needle).

Some garments of this fabric ravel when washed. Seams can be protected by turning the fabric edges under and stitching them or using a loose zig-zag stitch.

Thread shrinkage caused by washing or pressing can result in the same sort of puckering as high thread tension. Dacron and nylon thread does not shrink.

Touch-up ironing may be needed on seams to obtain a neat-appearing garment. When needed 100 percent dacron crepe should be pressed with a dry or steam iron at temperatures of 287 degrees to 300 degrees F. (Cool to medium iron.) Miss Todd suggests you check iron temperatures before pressing fabric. Do this on a scrap of the fabric or seam of the garment.

### PB County Welfare Has 6,680 Clients During Mo. of Aug.

Reverend Paul M. Cassen of District 10 Welfare Board of the State Department of Public Welfare, reported that in Palm Beach County 6680 persons were assisted in the four categories of public assistance for the month of August, 1963.

A total of 1995 persons received Old Age Assistance in the amount of \$93,441. 113 persons received Aid to the Blind, totaling \$9,509. 1039 families, representing 3333 children, received Aid to Dependent Children in the amount of \$65,077. 429 persons received Aid to the Disabled in the amount of \$22,664.

In addition 446 children received during the month, 201 of whom were in foster homes. The total state and local cost for these child welfare services was \$15,472.76.

There were 7 adoption petitions studied for the Circuit Court.

### Marsh Hen Season Opened Sept. 7th

The opening gun for the '63-64 hunting season sounded at sunrise Saturday, September 7, with the opening of the marsh hen hunting season. Hunting the migratory rails and gallinules (marsh hens) will be allowed for 60 consecutive days ending November 15, according to A. D. Aldrich, director, Game and Fresh Water Fish Commission.

Bag limit for all rails and gallinules, except sora rail, is 15 for day's bag and 30 for total possession. Daily bag limit for sora rail is set at 25, with a total possession of 25. Hunters are required to leave their shotguns plugged to three-shell capacity. Rifles are always prohibited when taking migratory birds. Duck stamp is not required for marsh hen.

### Florida Interama To Generate Jobs And A Billion \$\$ From Visitors

A permanent annual revenue boost of \$1 billion in Florida and creation of 100,000 jobs by 1967 will be riding on an upcoming vote in Congress, possibly next week, when the House gets a chance to approve the reauthorization Act extension.

The bill passed the Senate in June under the brilliant leadership of Senator Spessard Holland and Senator George Smathers.

The two Florida senators created an aura of respectability for ARA in Florida by tagging on an amendment making it possible for Florida's Interama participation in starting the enterprise. Interama is Florida's permanent world trade and cultural center planned in Dade County by the Inter-American Center Authority, a state agency.

Last year both Holland and Smathers voted against ARA, as did a majority of Florida's congressmen. The Florida amendment enabled the senators to favor the bill this year. Other Southern senators went along with the well-respected Holland and Smathers because they felt Interama would help ease the burden on our state of more than 100,000 Cuban exiles here. Another reason was that they saw the possibility of increased spending in their own states by the millions of new travelers on their way to and from Florida.

Passage of the bill by the House would give the green light for Federal financial participation in Interama similar to the government's \$10 million participation in the Seattle World's Fair, and \$17 million in the New World's Fair.

### FCD Will Consider Operation Hours For Boat Locks At Friday Meeting

Moore Haven, where held in August when citizens presented views concerning hours of operation of the new locks. The FCD Board will now consider establishment of hours for the lakeshore locks and recommendations to be forwarded to the Army Corps of Engineers for the hours of operation of locks on the Kissimmee Waterway. The FCD will operate all nine locks.

In other business Friday, the FCD Board will receive for acceptance (for operation and maintenance) Levee 68-A, recently completed in Broward County at a cost of \$276,000. The new levee, located inside Conservation Area 3, extends from a point just west of U. S. Highway 27 and State Road 84 to the South New River Canal at FCD Pumping Station 9. Shaped like a U, the levee is designed to reduce seepage and provide better water control in the big Conservation Area which supplies fresh water to both Broward and Dade Counties.

### Hospital Auxiliary Plan Games Party

The Woman's Auxiliary of Belle Glade Memorial Hospital voted at their regular monthly meeting Tuesday afternoon to hold a Games Party on October 10. Proceeds from this affair will be used for the Auxiliary's Nursing Scholarship Fund.

Mrs. Irvin Zumpt gave a report on the Hospital building project and showed members the plans and pictures of the new hospital buildings.

Five new members, Mrs. Jess Livingston, Mrs. Robert Mathews, Mrs. Frank Tudela, Mrs. Pete McClellan, and Mrs. Ruth Stein, were among the 13 attending Tuesday's business. "We are looking forward to a very interesting year," said auxiliary president Mrs. J. Allen Baker announced.

Anyone interested in joining the Hospital Auxiliary is urged to contact Mrs. Baker, or come to the meeting on the second Tuesday of each month, 2 p. m. in the Nurses' Lounge.

Oh yes, Martha, one of the biggest bores known is the fellow who talks when we want to.

## Lake Harbor Community Methodist Observed 28th Anniversary Sunday

Sunday, Sept. 8th marked the 28th anniversary of the Lake Harbor Community Methodist Church. During the morning service, a brief history of the Church was given by Mrs. John D. Hemphill. There were reserved seats for those who were at the dedication 28 years ago.

Mrs. H. D. Merriam taught the Intermediate Class at that time and they presented a Bible to the Church. Of a class of eight the following members were present Sunday: Mrs. Mary Merriam, Davis, Mrs. Bertha Perkins Babans, Miami, Mrs. Polly Grant McLendon, Cleveland; Mrs. Muriel Merriam Ball.

### CARD OF THANKS

We want to express our deep appreciation to all our many friends for their prayers, cards, flowers, and visits and kind deeds during the illness and death of our love one.

Family of W. A. Connell  
Willard Connell

Read John 6:23-35

They that wait upon the Lord shall renew their strength. (Isaiah 40:31).

In our living room we have a philodendron. It stretches part way across the room. We noticed that the farther it extended itself from the container in which it is planted the more it diminished in thickness and strength.

Here and there along the vine's length nodules appeared as if in search of fuller life. The plant lover in our home conceived the idea of putting these nodules, without severing them from the vine, into a series of additional containers filled with rich earth. The plant has taken on new life from this supplementary feeding.

It is a long step from Sunday to Sunday, and it is a longer step from Easter to Easter.

Too many persons who have professed Christ as their Savior and united with the church neglect to feed the soul between these special days. We all need to bear in mind that, just as supplementary feeding aids the growth and development of the philodendron, daily prayer, Scripture reading, and meditation will assure growth and development for our souls.

**PRAYER:** Our Father, we look to Thee in faith, asking forgiveness of our sins. Feed us this day on the bread of life and grant us power to live as Christ would have us live. In his name. Amen.

### THOUGHT FOR THE DAY

Our use of prayer is in direct proportion to our interest in a fuller life in Christ. T. D. Barnett (Canada)

### Sunday School

On September 24th the adult class will start a six month study of the Book of Revelation. We are invited to attend.

### Radio Program

Each Sunday at 10:45 "The Truth Shall Make You Free" is presented over WSWN. The present theme is — Some things you should know about the Church.

### Gospel Meeting

A special series of Bible lessons is scheduled for the week of Oct. 27 - Nov. 2. Several Bible questions will be discussed by various preachers of the South Florida area. Watch for further announcements.

"The Churches of Christ Salute You" (Romans 16:16).

## Churches of Christ Scientist

Christian Science churches are presenting a Bible Lesson on "Substance" this Sunday, emphasizing that only spiritual things are really substantial.

Bible readings will open with a verse from Psalms (104:24): "O Lord, how manifold are thy works! in wisdom has thou made them all: the earth is full of thy riches."

Related passages from the Christian Science textbook will include this statement: "All substance, intelligence, wisdom, being, immortality, cause, and effect belong to God" (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 275).

Friends of Everglades Presbyterian Church are invited to join with the members of the congregation on this significant occasion in the life of their church.

### THANK YOU

We are sincerely grateful to friends and neighbors for their many kind acts of sympathy during our and bereavement. The lovely flowers, cards and many other thoughtful deeds will long be remembered.

## J. Paul Vondracek To Be Installed By Presbyterians

The formal installation of the Reverend J. Paul Vondracek as minister of the Everglades Presbyterian Church will be conducted by a commission of Everglades Presbyterians at 7:30 o'clock evening at a 7:30 o'clock worship service.

The commission appointed for this occasion includes the following ministers: Dr. Ryan Wood, minister of the Memorial Presbyterian Church of West Palm Beach; Dr. Luther Price, minister of the Indian River Presbyterian Church of Ft. Pierce; and the Reverend Russel Toms, minister of the Lake Okechobee Presbyterian Church of Lake Worth.

Also on the commission are Mr. Earl-Mizzell who is a Rul Presbyterian Church of Miami and superintendent of the church Extension and Home Mission Committee of Everglades Presbytery and Ruling Elders S. Oliver O'Bryan of the Westminster Church, Miami and Fred D. Griffith of Memorial Church, West Palm Beach.

At 5:30 o'clock the Session of Everglades Church will be hosts to the members of the commission and their wives at a buffet dinner in the Christian Education building of the church. Also invited to the buffet are the wives of the session members and the Deacons of the church.

In the service of installation Dr. Wood will serve as moderator of the commission and the Reverend Toms will preach the sermon. Dr. Price will charge the congregation and Ruling Elder Mizzell will give the charge to the incumbent minister.

Friends of Everglades Presbyterian Church are invited to join with the members of the congregation on this significant occasion in the life of their church.

## Air Conditioning To Be Installed In Presby. Church

The Board of Deacons of the Everglades Presbyterian church has announced through its chairman, Mr. Harold Brough, that a contract has been let for the installation of central air conditioning for the sanctuary. It is estimated that two weeks will be required to complete the work.

This is the first in a series of improvements which will be made to the property and buildings of the Presbyterian Church. Other contemplated improvements now in the hands of the planning and building committee include the construction of additional Christian education facilities, general interior and exterior renovation of the present buildings, and landscaping of the extensive grounds of the church.

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest force in the history of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should belong to a Church: (1) For his own sake. (2) For the sake of his family. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

**BIG DAY**

It's an odd feeling when children start to school. As a parent, you are tremendously proud and excited. But you are also a little afraid.

For the first time, your Johnnie and Susie are going off on their own. Suddenly, they look smaller than they have since they were babies, and you have an irresistible impulse to run after them. But it's too late for that — so you let them go, with a smile on your lips and a fervent prayer in your heart.

Later, when the first rush of emotion passes and reason returns, you laugh at yourself. For the truth is that Johnnie and Susie are exactly where they've always been: in God's care, whether at home, in school, at play, or in church. And, grateful to the Church for this truth, you remind yourself that next Sunday you'll remember to thank God for that care . . . a little more than usual.

## High Schoolers—

### Coast Guard Academy Exams December

With schools throughout the nation back in session, the U. S. Coast Guard is reminding high school boys that the deadline to apply for the College Entrance Examination Board Tests which will be held on July 1, 1964, is fast approaching. The U. S. Coast Guard Academy is November 8, 1963. The CEED tests will be held in over 1,000 cities in the United States and abroad on December 7.

Entrance to the Coast Guard Academy at New London, Conn. is won through nationwide competitive examinations. There are no Congressional appointments and no geographic quotas. The December examinations will be for the Cadet class which will report to the Academy in July 1964 to begin the four-year course of instruction that leads to a Bachelor of Science degree and a commission as an officer in the Coast Guard.

Applicants for the Academy must be a high school senior or high school graduate, and must have reached his 17th, but not his 22nd birthday on July 1, 1964. Cadet candidates must also be U. S. citizens, unmarried, of good moral character, and in excellent health.

Present enrollment at the Coast Guard Academy includes 41 Cadets from the state of Florida, 6 from Georgia and 4 from South Carolina. These states make up the Seventh Coast Guard District.

Young men interested in applying for Coast Guard Cadetship can obtain complete information and application forms by writing to: COAST GUARD CADET, MIAMI 32, FLORIDA.

## For Tax Reporting

### Be Sure Your Bank Has Your Number It May Save You \$5.00 Or More

Federal law requires all taxpayers to include on their Federal Income Tax returns all interest and dividends received or credited to their accounts and pay any tax that may be due. This is not a new tax.

Tully Dunlap, President, Florida Bankers Association, and President, Riverside Bank, Miami, states that new regulations also require all banks and all other payers of interest and dividends of \$10 or more to any one account during each calendar year to report these payments to the Internal Revenue Service.

Internal Revenue regulations require the payer — whether a bank or any other payer — to furnish the recipient's Social Security number or other identifying number to Internal Revenue with each reported payment.

The regulations provide a penalty of \$5 which may be imposed upon any taxpayer who fails to supply his identifying number to the payer of interest or dividends. This penalty for each failure will be collected in the same way as the Federal Income tax.

Savings depositors or bank stockholders who have not reported their Social Security numbers to their bank, should now complete Part 1 of Form 2435, available from banks on request, and return the form to their bank. Those without a Social Security number should ask for an application form for an identifying number.

During the last twenty years, there has been a phenomenal growth in the number of tax returns filed with the Internal Revenue Service. In 1940 there were 19 million tax returns filed; today the volume has increased to over 84 million returns, representing revenue collecting of almost \$95 billion. The method of handling these returns is inadequate to handle today's huge volume.

The Internal Revenue Service, however, over a period of years, has developed an Automatic Data Processing system, called ADP, which has the capability to handle a large volume of tax returns at a speed that was previously considered impossible only a few years ago.

But to use this high-speed electronic equipment to its fullest advantage, some means had to be devised to identify positively a given taxpayer's account. Problems such as identical names, address changes or change of name through marriage had to be overcome.

The solution was to assign a number to each taxpayer. This number is to be used on all state tax returns and in all returns furnished to the Internal Revenue Service by payers of taxable income, as required by law. In addition to solving operational problems, the numbering system will permit the Internal Revenue Service to determine whether all taxable income has been reported by each taxpayer. This will be accomplished by matching the taxpayer's returns against the reports of income paid him from various sources.

The obligations of taxpayers and payers of interest with respect to taxpayer account numbers are clearly defined by the Federal Tax Law enacted by Congress in October of 1961, and further implemented by Internal Revenue Service Regulations (Treasury Decision Number 6060).

Florida Bankers Association suggests the public cooperate with bank who are, in turn, cooperating with Uncle Sam.

BE SURE YOUR BANK HAS YOUR NUMBER. IT MAY SAVE YOU \$5.00 OR MORE.

### It Is Unlawful For Any Person Or Persons To Engage In Business Under A Business Name Unless The Name Is Registered

The law reads as follows:

"It shall be unlawful for any person or persons, as defined herein, to engage in business as herein defined, under a fictitious name as herein defined, without and unless said fictitious name shall be registered with the clerk of the circuit court of the county where the principal place of business is, which registration shall consist of filing with the clerk aforesaid an affidavit signed by all interested persons, stating under oath the names of all those interested in the business enterprise, the extent of the interest of each, and the fictitious name under which said business is carried on. Said registration may not be made until the person or persons desiring to engage in business under a fictitious name shall have advertised his or their intention to register said fictitious name at least once a week for four (4) consecutive weeks in some newspaper as defined by law in the county where said registration is to be made, and said registration shall not be accepted by the clerk of the circuit court except upon receiving proof of such publication."

As interpreted by attorneys, a person may engage in business under his own name, (such as JOHN JONES), but if he uses a business name, (even such as JOHN JONES' FISH MARKET) he is required to register the name with the clerk of the circuit court in his county, and to advertise the name and ownership of his business.

## New Contract Signed By So. Bell Workers

The Southern Bell Telephone Company and the Communications workers of America Thursday night reached agreement on a new contract affecting more than \$1,000 of the firm's employees in nine southern states.

The agreement provides for a 38 month contract with two wage re-openers, the first to be 14 months from the effective date of the contract Sept. 5, 1963, the second 12 months after the first.

In addition, improvements were made in the hospitalization, benefit, and pension plans covering all employees, including retired employees. These provisions are for the 38 month period and are not subject to the reopener clause.

Bargaining has been in progress in Atlanta since July 29, the agreement is effective September 5, subject to ratification by CWA members.

The new contract provides for basic wage increases ranging from \$2.00 to \$5.00 per week, depending on the job and town classification of the employees. It also includes some upgrading of exchanges.

The wage increases coupled with the exchange classifications, represent an increase of 3 1/2 percent in basic wage rates. Southern Bell personnel Vice President, W. A. Thompson said, "The new agreement is fair to all who are interested in good telephone service — employees, the public and the owners of the business. Its provisions are based on recent surveys which were made of wages and other working conditions throughout the area it serves."

States served by Southern Bell are . . . Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

## Board Reviews Final Hospital Plans With Architects And Engineers Sat.

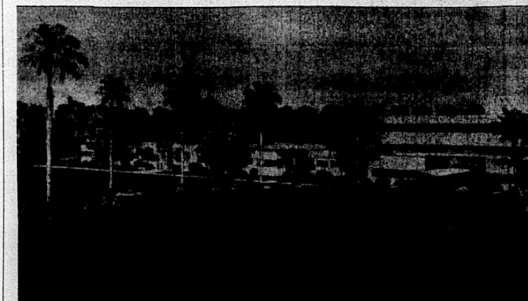

"I'm very much impressed by the thoroughness with which the Architects and Engineers have considered the many problems faced by the Board in the planning, designing and building our new hospital," is

the word of one Board Member, and concurred in by others, following a visit to Miami Saturday.

Five members of the Board, along with Manager Saunders and Architect Chester Come

listened to and watched a detailed discussion by structural, mechanical, and electrical engineers and architects for five and a half hours.

"We have a much clearer conception of the overall plans

## VIPs At FFVA Bal Harbour Convention

National prominent spokesmen from government, commerce and agriculture spark three days of intense scrutiny of the Florida agricultural community scheduled September 24-26 in Bal Harbour at the 20th Annual Florida Fruit and Vegetable Association Convention.

Some 1500 growers, packers, shippers, wives and guests will attend the FFVA meeting, termed by officials "one of the most important agricultural conferences to be held in Florida during recent years."

John W. Evans, Oviedo, in his second year as general convention chairman, unveiled a "convention agenda featuring such nationally known personalities as Florida Senator, the Honorable Spessard L. Holland; Interstate Commerce Commission Chairman Laurence Walrath, the first Vice President appointed to the ICC; Charles B. Shuman, President of the American Farm Bureau; L. F. Garrett, Jr., President of the United Fresh Fruit and Vegetable Association; and D. W. Brossman, President of Southern Railway System."

Key issues currently facing Florida agriculture, in such areas as transportation, quality improvement, government regulation and legislation touching the industry, will be explored in major forums and discussion portions of the program.

Headquartered in the Americana Hotel in Bal Harbour, the convention will kick off Monday, September 23, with a golf tournament for early arrivals. Business sessions will begin Tuesday, September 24, following registration Tuesday morning from 8 a. m. to noon.

The first business session, 2 p. m. Tuesday, will feature the keynote address by Senator Holland, himself a long-time Polk County grower prior to distinguishing public service at numerous levels of state and national duty.

J. Abney Cox, FFVA President, will preside at the session. George H. Wedgworth, chairman of the research committee, will present the Research Awards of the year during this session.

The second business session, Wednesday, 10 a. m. will highlight the topic "The Role of our National Association" with noted panel members participating. Honorable A. S. (Syd) Herlong, Jr., Florida 5th District congressman, will preside at this meeting.

Participants will include Charles B. Shuman, President, Farm Bureau Federation; L. F. Garrett, Jr., President, United Fresh Fruit and Vegetable Association; Marvin H. Walker, President, National Council of Farmer Cooperatives; W. B. Camp, Jr., President, National Potato Council; and William A. Free, Sr., President, National Canners Association.

The third business session, scheduled for 2:30 p. m. Wednesday, will see Secretary of State Tom Adams presiding at a program on "Government-Agriculture-Commerce."

Participants include D. W. Brossman, President, Southern Railway System; A. Worley Brown, Chairman, Florida Industrial Commission; Louis Gilbreath, reporting on Florida Agricultural Council Activities; and Letimer H. Turner, President, Florida Agricultural Council, Inc.

The fourth (and final) business session will be held at 2 p. m. Thursday. Tackling the key problems in transportation for the industry will be four prominent spokesmen in the field.

Participants include Attorney Maxwell W. Wells, Chairman, Maguire, Voorhis and Wells, of Orlando; the Honorable Laurence K. Walrath, Chairman of the Interstate Commerce Commission; Prime F. Osborn, Vice President and General Counsel, Atlantic Coast Line Railroad; and James F. Pinkney, Chief Counsel — Public Relations, American Trucking Associations Inc.

U. S. Congressman Billy Matthews will toastmaster the annual banquet Thursday night, 7:30 p. m. Featured on the program will be Florida's Commissioner of Agriculture, Doyle Conner.

Beginning at the roof and going specifically down to and including the foundation, a construction engineer detailed the specifications and plans for the

building. Then, followed the proposed construction apparently resulted for, the Board members.

All questions were answered, and discussions were had concerning many items in detail; notes were made by the architects for further discussion by the professionals and the Board.

It was announced that the plans and specs had been forwarded to the Hill-Burton authorities for final okay.

A tentative schedule was discussed which will allow the advertising for bids and the letting of the contract during November.

If final action by Tallahassee is reasonably prompt, it is hoped that construction will be well under way by Christmas.

Unanimous agreement was expressed by the Board members that the 5 and one-half hours had been well spent; a thorough understanding of the

## South Bay

### School News

The South Bay P. T. A. will have their first regular meeting Monday Sept. 16th at 8:00 p. m. in the school auditorium. Mrs. Mary Waters, incoming president will be presiding. The new officers will be presented to the P. T. A. at this time. This will be a chance for the parents to meet the teachers, and possibly discuss any problems that they may have.

The enrollment at South Bay School is 232, a new high for the first week of school. Mr. H. A. Ouellette, principal expects the enrollment to exceed 260 before the holiday.

## Savings & Loans—

SEPT. 12, 1963 THE HERALD, Belle Glade, Florida Page 2

## Help 2 of 3 US Families Own Home

Two out of three American families—35 million families in all—now own their homes, thanks in large part to home credit supplied by savings and loan associations, a savings and loan spokesman asserted today.

"This astonishing home ownership figure represents approximately 63 percent of our total family population," William D. Hussey, executive vice president of The Florida Savings and Loan League said, "as compared to 43 percent at the start of World War II.

"No other nation in history has ever provided as much total quantity and quality in housing for its citizens."

The state of Florida has taken its part in the national upsurge in home ownership, with 67.5 of families owning homes in the 1960 Census as compared to 52.6 percent in 1950.

Mr. Hussey, said that savings and loan associations themselves have helped finance the purchase or construction of an estimated 13 million single family homes since the end of World War II alone.

"When the tremendous demand for housing began to be felt shortly after World War II, it was natural for the savings and loan institutions, which had always specialized in home lending, to assume leadership in providing the far greater volume of funds needed to support the new levels of home buying and home building," he commented.

Mr. Hussey continued, "Since that time, associations have made by far the greatest number of home loans in the largest home buying market of average income families. Today, they are responsible for 45 percent of the total non-farm mortgage recordings under \$20,000, nearly three times as much as any other single lending source and currently hold almost \$90 billion in mortgage loans."

The League executive explained that the savings and loan institutions have maintained and increased their leadership in home financing because of their unique facilities of offering rapid and flexible home lending services directly to the general public.

He noted that "no other system of financial institutions provides the very great volume of individual home loans which associations do. The basic importance of the savings and loan system to the vital housing market is the fact that it is

## New Students On Campus!

Many new faces can be seen in the halls of Belle Glade Junior and Senior High School this year.

The returning students of Belle Glade wish to welcome all new students and hope that their days at Belle Glade will be remembered as some of their most treasured.

## Boys State

By Mickey McKee

The American Legion, Department of Florida, sponsors Boys State to assist in the education of our youth on the duties, privileges, rights, and responsibilities of American citizenship. It inculcates a sense of individual obligation to community, state and nation and teaches the youth of Florida the fundamental precepts of government.

The boy eligible to attend Boys State has to satisfactorily complete his junior year in high school and have the approval of his parents. Boys State is a place where leadership, courage, honor, loyalty, service, and while important, but not paramount, scholarship. Belle Glade was fortunate in being able to send four delegates this summer. They were Charles Thompson, John Causley, Ron Halbrook and Mickey McKee.

Boys from every part of Florida formed the mock government. Upon their arrival in Tallahassee, they were grouped into cities and counties and the "51st" state was established. For seven days the citizens of the new "State" carried out all functions of government, using the basic laws and procedure of the State of Florida.

The week proved to be most rewarding, educationally, and many lasting friendships were made. Among the many distinguished guests that spoke during the week were Cadet Richard E. Hood Jr., third classman at West Point and Cadet Captain Jim Webb, brother of the moon shot astronaut, from the Air Force Academy at Denver, Colorado.

## Watch Your Step!

The class of '62 is coming back to haunt the students of Belle Glade High School! Two years ago, it was decided by the class of '62 to leave a mosaic of the official school crest. Students returning for the school year '63-64 found this mosaic at the entrance of the school where it was placed this past summer, over a year after the graduation of the '62 class. This symbol should be RESPECTED and most important — not STEPPED upon.

## New Teaching Methods For Algebra And Chemistry At BGHS This Year

## Modern Algebra Course Offered

By Dale Henderson  
A new mathematics course, Modern Algebra and Trigonometry, is being offered this year to the 11th grade. This course, taught second period by Mr. Bowers, replaces the regular Algebra II course previously taught. Its aims are to clarify, simplify, unify, and broaden ideas in mathematics by introducing new concepts that deepen understanding.

## A New Slant On Chemistry

By John R. Sheehan  
A new course labeled "Chem Study" awaited students of Belle Glade High as they registered this year. The course, taught by Mr. W. R. Groover, is a new approach to teaching the principles of chemistry to the high school student. At present there are two classes of thirty students each taking the course.

The basis of the course is the study of chemical energy in the heat of reaction. The student, therefore, will spend much of his time in the laboratory.

The textbook, CHEMISTRY — AN EXPERIMENTAL SCIENCE, is being used in all of the Palm Beach County schools this year with the exception of two. The text was compiled over a period of three years by a group of high school and university teachers under a grant from the National Science Foundation. Closely associated with this textbook are a set of pertinent films and a laboratory manual.

Mr. Groover and also Mrs. M. A. Murphy, Jr., Junior High Science Teacher, are now offering a teacher's course which corresponds with the teaching of "Chem Study."

## Tough Enough!

Want to be "tough"? The above is an example of one of the most popular school outfits. This is composed of an A-line jumper with the ever-popular madras shirt. The jumper is of moss-green rib-walbed corduroy with a long-sleeved green madras shirt underneath. Cordovan penny loafers add the finishing touch. In hairstyles the long lean, straight look is "in" for this fashion season. In cosmetics the soft, pale shades are being used to accentuate one's femininity.

## Report From Girls State

By Margie Townsend  
The 1963 session of Girls State was one of the most fruitful that has ever been held. Sponsored by the American Legion Auxiliary, it was attended by Joan Fortenberry and Margie Townsend.

Girls State is exactly what it says it is: a mythical state composed completely of girls. The state was called Seminole and it was run in the same manner that Florida is run. Upon arrival at Florida State University, the girls were divided into cities, two cities composing a county. On the first night city officials were elected and on the following morning county officials were elected. Then began the big campaign for the state offices.

The girls were also separated into political parties: Nationalists and Federalists. Each party had its own rally and convention in which party candidates were selected. Party rivalry was very heated and the party whips kept everyone yelling!

In addition to all the fun, the Girls State girls were addressed in the House by several important members of the Florida governor's cabinet. These speeches were concerned with the duties of each of the cabinet members and were very interesting.
